Features

Presenting a unique LVP product whose visual is a very contemporary fusion of stone and wood with a smooth, low-gloss surface. The colorations, together with the 6" x 36" plank format, make this an exciting product that can be used where the homeowner prefers either a reclaimed wood visual or a more formal marble look.

In addition, the VersaFit no-glue backing makes for easy installation. Install three ways: loose-lay, perimeter glue, or overall glue.

3 colors:

- Light, smoky grey with marbled white—inspired by Carrara marble
- Dusky, warm grey with white accents against cool brown background
- Cool white background with accents of grey veining

Urbanality

Features

Unlike anything done before! Here, at excellent price points, are designs and colors intentionally suited for urban spaces and multi-family housing—anywhere people enjoy forward-thinking decor. Urbanality steps into new visuals that are not entirely wood designs. That's because there's a great need in many markets—especially urban—for products without busy graining or strong character. So this collection features clean, simple-grained woods like white oak and maple—alongside striations that are woodlike but don't represent a species. Urbanality's design intentionally avoids regional characteristics and works well for both west coast and east coast looks.

Available in 14 skus, Urbanality offers lots of colors, lower gloss level, and some very progressive designs—enough to please all tastes, whether traditional or contemporary.

World's Fair

Features

A great new option in resilient!

World's Fair makes a fabulous first impression with the desirable look of rustic, reclaimed barnwood. Its styling reflects 10 gorgeous wood species in current colors, creating design choices that range from contemporary to traditional. And the realism is impressive—some of the styles are embossed, and some offer the natural look of "limed" (or white-filled) color.

Choose from better and best in wear layers and warranties.
